DMBK Sound Damping Mat
9 Sheet Bulk Kit

Sound Damping Mat

9 Sheet Bulk Kit

18" x 32" Sheets/ 36 Sq. Ft. Total

Material

- White Butyl Based Core
- 4 ml Aluminum Foil
- Craft Paper Release Liner

Mass

- 0.62 lbs./Sq. Ft.

Thickness

- 0.087" (2.2 mm # 0.2 mm)

Temperature Range

- Optimal: 140°F to +140°F (-10°C to +60°C)
- Resistance: -650°F to +300°F (-54°C to +149°C)

Adhesive Peel Strength

- 40 lb. per sq. in. on Cold Steel

Chemical Resistance

- Resistant to water and mineral oils

Installation Steps

- 1 Prepare the mounting surface for installation using a quick-drying solvent such as denatured alcohol. Clean any grease or grime to ensure maximum adhesion.
- 2 Cut mat to the desired shape and size with included knife. Peel off the backing and apply the adhesive side to prepared mounting surface.
- 3 Apply the sheet to the mounting surface with a included roller tool. Press the mat into all of the crevices to ensure maximum adhesion.
